

**ELS** ENDOWED  
LECTURE  
SERIES

Poster Number	Primary Author Name	Poster Title
1	Mariah N. Mills	Validation of a Pyrosequencing Assay for Severe Combined Immunodeficiency
2	Kelissa McCullar	Rapid Molecular Detection of Adenosine Deaminase Deficiency Severe Combined Immunodeficiency Using High-Resolution Melt Analysis
3	Frédéric P. Froment	Direct Access Advantage for the Musculoskeletal Physiotherapy Scope of Practice Throughout WCPT and IFOMPT Affiliated Countries
4	Charles Nichols	Glenohumeral Joint Capsular Tissue Under Tension Loading Correlates Moderately with Shear Wave Elastography: A Cadaveric Investigation
5	Talin Pepper	The immediate effects of foam rolling and stretching on iliotibial band stiffness: a randomized control trial
6	Jenifer L. Dice, PT, ScD	Use of Manual Therapy in Children: A United States Physical Therapy Delphi Investigation
7	Doug Dendy, PT, ScD, PCS	On-field performance effectiveness of an ACL injury prevention program during a recreational softball season for young girls: Applying coach and player engagement
8	Doug Dendy, PT, ScD, PCS	Case study: Effect of stroboscopic vision training during a softball season
9	Ashly Pingsterhaus	Acoustics of Noise-Adapted and Clear Speech in Individuals with Elevated Depressive Symptoms
10	Zeth Collom, M.S, CCC-SLP	Case studies: A Model for Setting Communication Goals within the Life Participation Approach to Aphasia
11	Reid Gehring, PT, DPT, OCS	Neurodynamic Treatment for Neurogenic Claudication related to Lumbar Spinal Stenosis: A Case Series
12	Kinyata Cooper	The Effect of Executive Cognitive Distraction on Sustaining a Volitional Preemptive Abdominal Contraction During a Unipodal Functional Movement in Healthy Subjects
13	Alex Drusch	Effect of Volitional Preemptive Abdominal Contraction on Superficial Multifidus Response During Unipodal Lower Extremity Reach Task in Healthy Subjects
14	Leigh Ann Reel	Agricultural Science Teachers' Noise Exposure During Shop Classes – Preliminary Results of a Pilot Study
15	Larry Munger	Hop Performance Measures in ACL Injured Athletes Compared with Normative Data from Uninjured Athletes
16	Deborah York Edwards PT, DPT, OCS	Ulnar Nerve Fluid Dynamics with Ulnar Nerve Bias Neurodynamic Mobilization vs. Sagittal Plane Passive Range of Motion at the Elbow
17	Ashley Zamarippa & Jani Hammit	Effect of Auditory Task Type on Subjective and Objective Measures of Listening Effort in a Pediatric Population
18	Brittany Hall, MS, CCC-SLP, LSLC Cert. AVT	Wee Read Club: An Early Intervention Team Model for Early Learners, Parents & Future Pediatricians
19	Tobias Kroll	Speech-language pathologists' role with regard to diversity-related interactional dysfunction in healthcare environments.
20	Cameron Basset	Shear wave elastography measured differences between unembalmed and embalmed knee tissue stiffness.
