

COVID - 19

Update from Management

From: Dr. Cynthia Jumper, Dr. Denise DeShields, and Will Rodriguez

To: All Managed Care and contracted staff

Date: March 16, 2020

Dear Team Member,

The Managed Care team has been monitoring the latest developments and planning for the continued safety of our community during the COVID-19 pandemic. We have formed an internal task force and we are working closely with TTUHSC and our external partners.

We want to assure you that staff will be paid for their work throughout this process. We are exploring ways we can continue operations with limited on-site presence, including the utilization of telecommuting. We will share more information about this in the coming days.

Additionally, effective Tuesday 3/17, before any individual enters a TDCJ location, they will have their temperature taken and if a fever is present, a screening form must be completed.

Please continue to check the [TTUHSC Coronavirus Guidance](#) page for the most up to date information. If you have any questions, please reach out to your direct supervisor or your Human Resources representative.

Sincerely,

Cynthia Jumper, MD - VP for Health Policy

Denise DeShields, MD - Executive Director

Will Rodriguez, MSOLE - Executive Director
